Hands-On AI: Automate Data Analytics and Reporting with n8n

with Dawn Choo and Jeremiah Clark

AI Prompt

Write an email that summarizes these ad campaigns. These are all low-performing CTR campaigns.

Return the response as a JSON object with the following structure:

```
{
  “header”: {
    “to”: “Account Manager”,
    “subject”: “[subject line here]”,
    “from”: “Dawn”
  },
  “body”: “[HTML formatted email content here]”
}
```

Requirements:

- Format the email body as HTML (use <p>, <h2>, <table>, <ul>, <li> tags as appropriate)
- Address the recipient as “Hi Account Manager” at the start
- Sign off with “Best regards, Dawn” at the end
- Include a professional summary of campaign performance
- Highlight key metrics and patterns
- Provide actionable recommendations
- At the end of the email, state: “This report summary was auto-generated with AI. If you have any issues or questions, please respond to this email, and I will personally review it.”
- Use HTML tables to display campaign data where applicable

Campaign Data:

{{ JSON.stringify($input.all(), null, 2) }}
